

TOOL KIT MINISTRIES - WINTER UPDATE 2010

New: National Capital Christian Education Conference

This 2 day conference was in the DC area at the new Marriott Conference center at UMUC, College Park, MD. What a great facility that combines hotel and conference center into one. Toolkit had a resource table front and center where over 30 people signed up as prayer warriors and e-newsletters. Praise the Lord for answered prayer. That brings the prayer band to about 450 praying supporters.

Dr. Nancy taught 4 separate individual classes with a total of about 175 church leaders and workers. The response was heart warming and so positive. We pray that God will use all the attendees to multiply His kingdom in the DelMarVa area.

Praise the Lord for team workers:

At the convention, many volunteers helped with resource tables, loading and unloading books and in the classroom. The last Sunday night in January, God brought Beth to us as a team partner making a teaching team of 3 for the Karis Home in Baltimore. Not only did the ladies at the mission enjoy the lesson of true forgiveness from the Bible but all the children did as well. We had a wonderful time of sharing and singing scripture songs as well as praying with the residents and workers. God reminded me once again, "Faithful is He who calleth you who also will do it!" (1 Thess. 5:24)

Childrens' Chapel Speaker:

Dr. Nancy took the lesson of forgiveness to a powerpoint level as she taught over 100 young elementary children at Grace Christian School of Bowie. On a daily basis, forgiving others is a choice and involves doing good and praying for others as well. She has been requested to be a recurring speaker during the school year and looks forward to creating more Christian Character building presentations.

PRAISE GOD FOR HIS BLESSINGS!!

1. God is filling up the 2011 schedule with many opportunities.
2. God is answering prayers to ADD more prayer warriors to pray for TKM events, for the local churches and leaders involved and unity among His people.
3. God's provision and protection during the active traveling in winter months.
